

## Time For Tots

### Planes, Trains & Automobile Activities For *Wee Beginners* and *Wee Explorers*

1. **My Shape Train** - Give each child a piece of white construction paper. Give the children different colors of construction paper (precut) rectangles and circles. Assist the children in laying the shapes out in a train pattern on their papers. Glue in place. 
2. **Paint and Car Wash** - Fill pie plates with different colour paints. Let the children drive toy cars into the paint and then go through the car wash. Wash cars using a tub of soapy water and some toothbrushes.
3. **Marshmallow Train** (allergy alert)  Use pretzel sticks to hold together marshmallows to make a train. Also use peanut butter to stick on cheerios as wheels.
4. **Painting a box for a school bus** - You will need a big cardboard box so a child can fit inside, paint. This might take a few days but my kids love it! Have them help paint the box yellow, black, whatever color you want to make a school bus. At circle time, each child gets a turn to ride inside the bus and tell everyone where he is going
